Monroe Conference Room, CESC
July 19, 2010
2:10 PM–3:00 PM

Encryption Committee members attending:
David Hines, (SCV) – Co-Chair
Michael McDaniel (VRS) – Co-Chair
Steve Werby (VCU) – Co-Chair
* Cameron Caffee (VDOT)
* attending via teleconference

Also attending:
Bill Freda (VITA)

Encryption Committee members absent:
Todd Richardson (DMME) – Co-Chair
Michael Watson (VITA)

Topics Included:
Best Practices

The committee discussed the current status.

The committee discussed completing the final draft of the best practice documents Removable Media Encryption, and Web Server Encryption. These documents will be submitted to the Security Council Upon completion of the draft final review.

Documents in final review:
- Removable Media Encryption
- Web Server Encryption

The encryption best practice documents, E-mail Encryption and Transfer Protocol Encryption are planned pending the results of the Security Council review of the Removable Media Encryption and Web Server Encryption documents.

Documents pending:
- E-mail Encryption
- Transfer Protocol Encryption

The committee discussed the additions to the standard in data protection and encryption.

Encryption issues at the committee member's agencies were also briefly discussed, including removable media in output devices, e.g., printers.
